

An introduction to CLP and REACH

90 minute webinar

This 90 minute webinar will introduce you to the new Classification, Labelling and Packaging (CLP) Regulation (Regulation (EC) No 1272/2008) which sets-out the new requirements for the classification, labelling and packaging of chemical substances and mixtures. The Regulation came into force on 20 January 2009 and some requirements impact on businesses immediately whilst others come into effect in the future. The CLP Regulation implements the Globally Harmonised System for the classification and labelling of chemicals (GHS) in the EU.

We will inform you how to implement changes in your business in order to efficiently and effectively comply with the requirements of the new Regulation.

The presentation will cover:

- How CLP differs from the existing/old system
- Elements of the GHS/CLP
- Links between CLP and REACH
- Timing
- Company preparation

During the presentation you will have the opportunity to post questions to our online chat system that the presenter will answer at the end of the session.

Instructions on how to access the webinar will be emailed to attendees in advance of the date.

Delegates looking for more indepth coverage of the CLP regulation should attend our one day workshop: **Classification, Labelling and Packaging: your legal obligations**. Click here for more: <http://bit.ly/dV92M>

Cost: £75+VAT per attendee.

Dates: Thursday 29th April. **13:00 GMT, 14:00 BST (GMT+1).**

Contact: Adam Rowntree: a.rowntree@thereachcentre.com or call 01524 510278, fax 01524 510588.

Book online: www.thereachcentre.com/training

There are limited spaces available for this workshop so please book early to avoid missing out. Please be aware of our standard cancellation policy as stated on the website and booking form.
