

Navigate your way through regulatory compliance

All Your REACH Compliance Solutions in One Place

The REACH Centre is a hub for all REACH requirements. We aim to clarify and demystify REACH and help companies navigate their way through the lengthy but necessary processes for compliance. We offer a comprehensive range of services that includes workshops, seminars and direct consultancy. In addition, we have established a collaborative network of chemical industry expertise and trade associations to create a centre of excellence for full REACH compliance.

The REACH Centre offers:

Consultancy	Including:
Strategic management	Business planning with senior management
Regulation applicability	Pre-registration, Registration, Phase-in timing, OSOR and SIEF guidance
