

An introduction to SVHCs and REACH

90 minute webinar

SVHCs (Substances of Very High Concern) are a diverse group of substances that have been placed on the Candidate List for Authorisation by the European Chemicals Agency (ECHA) because of their particularly hazardous properties. REACH imposes specific controls on SVHCs over and above those that apply to other chemicals.

This webinar will give an introduction to the REACH obligations placed on chemical users and suppliers of articles with respect to SVHCs, and address the wider business and commercial impact of these substances.

Topics covered include:

- What are SVHCs
- Candidate List
- Notification
- Authorisation
- Obligations and time lines
- Compliance and due diligence
- Calculation of concentrations
- Business implications
- Regulatory developments
- Stakeholder lists

Instructions on how to access the webinar will be emailed to attendees in advance of the date.

Cost: £75+VAT per attendee.

Dates: Tuesday 30th March. **13:00 GMT**, 14:00 BST (GMT+1).

Contact: Adam Rowntree: a.rowntree@thereachcentre.com or call 01524 510278, fax 01524 510588.

Book online: www.thereachcentre.com/training
